STS-135 Landing

International Space Station Completion

International Space Station

Tests and Milestones: Pad Abort Test

Tests and Milestones

Shell Buckling Test

The 2011 Shaw Prize in Astronomy

Dr. Gerald Fishman

James Webb Space Telescope

FASTSAT – NanoSail-D

Solar Science

Discovery and New Frontiers

Chandra X-ray Observatory

MSFC Contractor Excellence Award

MSFC Contractor Excellence Award

TELEDYNE
BROWN ENGINEERING, INC.

A Teledyne Technologies Company

The background of the slide is a deep space image featuring a vibrant nebula with swirling clouds of blue, purple, and orange gas. Numerous bright stars are scattered across the dark cosmic field, some appearing as sharp points of light while others have a soft, out-of-focus glow.

New Challenges
New Opportunities

NASA Strategic Plan

Extend and sustain human activities across the solar system

Expand scientific understanding of the Earth
and the universe in which we live

Create the innovative new space technologies
for our exploration, science, and economic future

Advance aeronautics research for societal benefit

Enable program and institutional capabilities
to conduct NASA's aeronautics and space activities

Share NASA with the public, educators, and students to provide
opportunities to participate in our Mission, foster innovation, and
contribute to a strong national economy

The background of the slide is a deep space image featuring a vibrant nebula with swirling clouds of blue, purple, and orange gas. Numerous bright stars are scattered across the dark cosmic landscape, some appearing as sharp points of light while others are slightly blurred. The overall atmosphere is one of vastness and exploration.
